

**FOR SALE – 1948 KH 500cc TWIN - \$9000 ono**

This older restoration bike is one only three rigid 1948 KH (Red Hunter twin) bikes on the Ariel Register data base. First release models like this KH are rare to find being offered for sale. Bike is fitted with an oil filter and oil cooler, which allows modern multigrade oils to be used in the engine. Oil pump and oil gauge have recently been reconditioned. Bike was restored with complete engine rebuild circa 2006 by previous owner and has only done 3,160 untroubled miles since being reassembled. This bike has been ridden at every AAR rally since 2008. Engine Number is PT345 and Frame Number is DX573. Bike is easy to start, is smooth to ride, and is a reluctant sale due to owner having hip and back problems. Bike is located in ACT.
