

CYCLONE & FHS IDENTIFICATION

The Secretary has been provided with a copy of factory records for Cyclone and FHS motorcycles. The provision of the list is conditional that the engine and frame serial numbers are not for further distribution. However, the numbers may be used to check authenticity of motorcycles claimed to be a Cyclone or FHS. The list does not address all FH motorcycles made, just those later models that were either sold as Cyclones or Exports Sports.

Any person who has bought or intends buying an Ariel Cyclone or FHS may check the validity of the bike's configuration by contacting the Secretary and providing the bike's engine and frame numbers. The Secretary may be able to confirm its configuration as either a genuine Cyclone/FHS or a replica.
