

## Hybrid (1949/1951/1958) VB600 Ariel - \$10,000

A very attractive looking VB600 hybrid compiled from a couple of bikes. The bike currently has a sprung Ariel KH/KG frame, however the correct period rigid frame also comes with the bike. Fuel tank is an Indian made replica.

Engine number: CAMC1206 (1958/59 VB).  
Frame: SB627 (1951 500cc Twin)  
Included Frame: RF2232 (1949 Rigid Frame)

Bike has undergone considerable restoration and was almost ready to ride in the Bay to Birdwood when COVID intervened. Has since languished in the shed and I just don't have the time to complete it.

- The engine has been refurbished.
- A new clutch has been fitted
- The carby has been reconditioned
- The magneto has been refurbished
- Some work has been carried out on the electrics
- Paintwork is pretty good
- Tyres are in excellent condition
- Speedo is missing.
- Cardboard box of Ariel bits!

Bike is located in Canberra and is available for inspection. Please contact Justin on **0408 219 376**
