

QUALITY AUSTRALIAN-MADE VH CRANKCASES

These new Ariel crank cases are made from high grade 6061 Alloy and heat treated to T6. They take the original bearings and fittings. A set of these have been used in a Ariel Race bike over the past 3 years and have improved performance. They have increased wall thickness and increased lug mount size for stability in frame. This will allow a 645 cc capacity engine size.

Price \$2,000/set + \$30 package & post. Contact -Clive Harrop.0425 619 628.
